Global Caché and Control4 Work Together

Providing Complementary Solutions for Home Control and Automation

Indianapolis, IN – September 8, 2005 – (CEDIA Expo 2005 Booth 1215 and Booth 2029) Global Caché, a leading provider of network-enabling products, and Control4, an award-winning home automation company, have announced drivers that integrate the two technologies. An agreement permits the two companies to work closely together, to deliver products that address the fast-growing home automation and control market.

Control4 manufactures a complete line of affordable wired and wireless home automation products, making safety, convenience, comfort, and economy available to virtually any homeowner. The Control4 line-up of products is customizable, easy to install and use, and modular for fast and simple upgrades. Global Caché manufactures IP-enabling products, including the GC-100 Network Adapter which network-enables common household devices, infrared (IR) learning solutions, and other products that allow otherwise unconnected devices to be accessed and controlled over a network.

Robin Ford, VP of Business Development for Global Caché said, "We're confident the Control4 team, with their deep experience in this market, is spot-on with their product line and focus on being cost-effective and versatile. We value those qualities at Global Caché and have implemented them in our products, which are complimentary with Control4 solutions. We're pleased to begin a partnership and know that our respective channel partners will benefit."

"Control4 is interested in partnering with companies like Global Caché, that give our dealers and installers options," said Jim Gist, Control4 Director of Business Development. "The relationship with Global Caché, as we develop drivers for their products, reflects our third party integration commitment to our channel. The ability to integrate Global Caché products into a Control4 environment gives installers additional choice."

Look for Global Caché at booth #1215 and Control4 at booth # 2029 during CEDIA Expo 2005 in Indianapolis, IN on September 9 through September 11.

About Global Caché, Inc.

Global Caché is dedicated to producing state-of-the-art products that enable technology in homes and businesses. Our award-winning GC-100 Network Adapter provides the means for PC-based automation and management software to access, control, and deliver services in a networked home or business to diverse and previously unconnected devices and appliances. In addition, Global Caché provides an IR learner, winner of the prestigious CEPro Product of the Year award for IP-enabling, receivers, sensors, and other connectivity products. Global Caché sells through distributors, VARs, and OEMs. For more information on Global Caché and our products and services, visit online at www.globalcache.com or call us at 541-899-4800.
