Global Caché Continues to Expand with Distribution into Spain
*Partnership with Domosystems to Provide Distribution, Integration, and Localization
for Spanish Residential Market*

Jacksonville, OR – August 02, 2005 – Global Caché, the award winning provider of IP-enabling products for homes and businesses, announced today it has signed an agreement with Domosystems, a leading provider of residential technology, to localize, integrate, and distribute Global Caché products throughout Spain.

Global Caché's flagship product, the GC-100 Network Adapter, is designed to IP-enable devices and appliances that otherwise could not be connected to a network, bringing Ethernet connectivity to infrared (IR) devices, serial (RS232) devices, and relay switches (contact closures), allowing them to be controlled using IP-based software. Global Caché also supplies IR learning devices, IR receivers, and sensors for use over networks.

Domosystems, one of a group of companies addressing home technology, is the manufacturer of e-domo, a home control product that integrates security and comfort in the home. Domosystems is a sister company to HogarDigital, a digital home services company and provider of the OSGi Residential Gateway (WebTV ADSL router), Domotica.net, a leading Spanish portal providing news, training and products, Next Home Generation, a property builder with of 3rd generation homes, and Operia, the biggest Spanish technology home integrator.

"Teaming up with Domosystems is exciting for us," said Walt Keller, Global Caché President. "Their reputation and influence throughout Spain will be beneficial to Global Caché. Our product fit is excellent, and we look forward to working with all of the HogarDigital Group of companies. This partnership is important for us, and we expect it to greatly assist in growing our business."

"We were delighted to discover Global Caché technology and recognized right away it would fit very well into our product and service offerings," said Andres Manso, HogarDigital Group CTO. "The addition of the Global Caché products to our current product line and service offerings will enhance our customers experience and further enable us to provide a powerful serial and IR distributed solution at a very cost-effective price."

About Global Caché, Inc.

Global Caché is dedicated to producing state-of-the-art products that enable technology in homes and businesses. Our award-winning GC-100 Network Adapter provides the means for PC-based automation and management software to access, control, and deliver services in a networked home or business to diverse and previously unconnected devices and appliances. In addition, Global Caché provides an IR learner, winner of the prestigious CEPro Product of the Year award for IP-enabling, receivers, sensors, and other connectivity products. Global Caché sells through distributors, VARs, and OEMs. For more information on Global Caché and our products and services, visit online at www.globalcache.com or call us at 541-899-4800.

About Domosystems
