*PowerHome Home Automation Software Supports Global Caché GC-100 Network Adapter*

**Jacksonville, OR – July 31, 2007** – Global Caché, the award winning provider of IP-enabling products for homes and businesses, announced today they have entered into a strategic alliance agreement with PowerHome Automation, developers of PowerHome Home Automation Software. The agreement provides a platform for the companies to work together to ensure product compatibility and allows for co-marketing activities. Support for the Global Caché GC-100 is currently available in the beta version of PowerHome’s software.

“We’re pleased to be working with the folks at Global Caché and supporting their products,” said Dave Howard, PowerHome President. “Their network-enabling products are perfect for our customers and allow us to provide a more complete solution. Due to their open architecture, integrating their products was easy.”

Robin Ford, Global Caché VP of Business Development said, “We’re happy that PowerHome is supporting us with their Home Automation Software. PowerHome, a popular software package with do-it-yourself enthusiasts and homeowners, is based upon open systems and standards and further exemplifies the acceptance of open systems in home automation.”

Global Caché’s products include the GC-100 Network Adapter, a flexible and easy to use hardware device connecting infrared (IR), serial (RS232), relay (contact closure) devices, and sensor input to a network. The GC-100 enables the use of network-based software to control and automate diverse devices throughout a home and business. In addition, Global Caché provides IR learners, sensors, IR receivers, and other IP-enabling products to connect previously unconnected systems to a network. Global Caché products are based upon open systems and accepted industry standards. PowerHome Automation Software is a powerful and flexible software solution for the PC. PowerHome software is designed for the home enthusiast and is available on the PowerHome website.

**About Global Caché, Inc.**

Global Caché is dedicated to producing state-of-the-art products that enable technology in homes and businesses. Our award-winning GC-100 Network Adapter provides the means for PC-based automation and management software to access, control, and deliver services in a networked environment to diverse and previously unconnected devices and appliances. In addition, Global Caché provides an IR learner, winner of the prestigious CEPro Product of the Year award for IP-enabling, sensors, and conversion cabling to connect previously unconnected systems to a network. Global Caché sells through distributors, VARs, and OEMs. For more information on Global Caché and our products and services or to place an order, visit online at [www.globalcache.com](http://www.globalcache.com) or call us at 541-899-4800.
