Global Caché Expands South African Distribution

Tesla Automation to Distribute Global Caché Products with Automation and A/V Solutions

Jacksonville, OR – July 27, 2005 – Global Caché, the award winning provider of IP-enabling products for homes and businesses, announced today it has begun selling products through Tesla Automation, a South African distributor of high-end automation and audio video systems.

Global Caché's flagship product, the GC-100 Network Adapter, is designed to IP-enable devices and appliances that otherwise could not be connected to a network, bringing Ethernet connectivity to infrared (IR) devices, serial (RS232) devices, and relay switches (contact closure), allowing them to be controlled using IP-based software. Global Caché also supplies IR learning devices, IR receivers, and sensors for use over networks. Tesla Automation, headquartered in Cape Town, distributes home automation products and provides services to custom electronics integrators and installers.

"We're very pleased to be representing Global Caché products in South Africa and surrounding countries," said Zoran Paunovic, Tesla Director. "The Global Caché product line is very cost-effective and fits perfectly with our current products, allowing our customers to serve IP-based installations at the highest-end, but at a very competitive price."

Robin Ford, VP of Business Development for Global Caché added, "We're happy that Tesla has decided to sell and support our products in South Africa. Pluto, one of our partners, is also a supplier for Tesla. This provides Tesla with a ready made audience for our products, and makes it very easy for their installers and dealers to integrate our products in their systems."

About Global Caché, Inc.

Global Caché is dedicated to producing state-of-the-art products that enable technology in homes and businesses. Our award-winning GC-100 Network Adapter provides the means for PC-based automation and management software to access, control, and deliver services in a networked home or business to diverse and previously unconnected devices and appliances. In addition, Global Caché provides an IR learner, winner of the prestigious CEPro Product of the Year award for IP-enabling, receivers, sensors, and conversion cabling. Global Caché sells through distributors, VARs, and OEMs. For more information on Global Caché and our products and services or to place an order, visit online at www.globalcache.com or call us at 541-899-4800.
