Global Caché Signs UK Distributor UniPalm

Unipalm, a COMPUTERLINKS Company, to Distribute Global Caché Products in the UK and Ireland

Jacksonville, OR – February 7, 2006 – Global Caché, the award winning provider of IP-enabling products for homes and businesses, announced today it has signed IP-based solution provider, Unipalm, to sell and support Global Caché products in the United Kingdom and Ireland.

Global Caché's flagship product, the GC-100 Network Adapter, is designed to IP-enable devices and appliances that otherwise could not be connected to a network, bringing Ethernet connectivity to infrared (IR) devices, serial (RS232) devices, and relay switches (contact closure), allowing them to be controlled using IP-based software. Global Caché also supplies IR learning devices, IR receivers, and sensors for use over networks.

Unipalm, a COMPUTERLINKS company, is the UK and Ireland's foremost specialist distributor of Internet technology solutions. For channel partners implementing intelligent network environments and integrated, scalable security systems, Unipalm offers a single point of expertise and assistance. Unipalm operates through a network of reseller partners, including VARs, OEMs, systems integrators, ASPs and ISPs, providing channel partners with reliable, supported solutions from world-leading hardware and software manufacturers. Utilizing over 15 years experience in IP-based business solutions, Unipalm offers its customers a full-service package of technical, sales and marketing support, practical training and efficient logistics.

COMPUTERLINKS is the largest European value added distributor for resellers wishing to partner with market-leading international manufacturers. In mainland Europe COMPUTERLINKS markets in Austria, France, Germany, Hungary, Italy and Switzerland, and, through the recent acquisition of Securesoft, Denmark, Finland, Norway and Sweden. COMPUTERLINKS also has a presence in North America.

“Partnering with Unipalm to represent us in the UK and Ireland is an important event for us,” said Robin Ford, Global Caché VP of Business Development. “Unipalm has the channel commitment, the reach, and the support structure to take us the next step in penetrating the business and residential markets that we both serve. The fact

that they are owned by COMPUTERLINKS offers even more opportunities for growth into the rest of the European market. Europe is an important market to us and we are very excited to be aligning ourselves with the leading distributor of IP based solutions in their market. This is a really good development for us and our international customers.”

John Turner, Head of Multi Media Networking for Unipalm concurred, saying, “We believe that Global Caché’s line of IP-enabling products is going to be an important part of our IP-enabling offering. Their ability to connect previously isolated devices like DVD players to a network is a huge bonus for our Automation and Control solutions aimed at both business and residential markets. The simplicity, and flexible design of the GC-100 Network Adapter, as well as the very competitive pricing, is going to be incredibly attractive to our channel.”

About Global Caché, Inc.

Global Caché is dedicated to producing state-of-the-art products that enable technology in homes and businesses. Our award-winning GC-100 Network Adapter provides the means for PC-based automation and management software to access, control, and deliver services in a networked home or business to diverse and previously unconnected devices and appliances. In addition, Global Caché provides an IR learner, winner of the prestigious CEPro Product of the Year award for IP-enabling, receivers, sensors, and other connectivity products. Global Caché sells through distributors, VARs, and OEMs. For more information on Global Caché and our products and services, visit online at www.globalcache.com or call us at 541-899-4800.

About Unipalm

Unipalm is the UK and Ireland’s leading distributor of e-Business and e-Security solutions from technology world leaders such as Check Point, Nokia, Symantec, and Citrix (UK only). These companies have been carefully chosen to ensure Unipalm partners can offer a complete solution. 100% committed to the two-tier channel, Unipalm works with vendors, resellers, and users to deliver profitable growth to partners and competitive advantage to their business partners. Unipalm provides the training, consultancy, sales, marketing and technical expertise needed to recommend, install, and support its portfolio. Unipalm is owned by COMPUTERLINKS, a public company, trading on the German Prime Standard Market. For more information visit www.unipalm.co.uk.
