**Global Caché signs Ezecomp Limited as New VAR**

*Ezecomp, an Irish Software and Systems Provider Will Include Global Caché Products in Offering*

**Jacksonville, OR – April 17, 2006** – Global Caché, the award winning provider of IP-enabling products for homes and businesses, and Ezecomp Limited, a premiere software and systems provider, announced today they have signed a Value Added Reseller (VAR) agreement, allowing Ezecomp to sell Global Caché products as part of their Ezedac control and monitoring system.

Global Caché's products include the GC-100 Network Adapter, a flexible and easy to use hardware device connecting infrared (IR), serial (RS232) and relay (contact closure) devices to a network. The GC-100 addresses the growing number of homes with high-bandwidth Internet and networking capability and enables the use of network-based software to control and automate diverse devices throughout the home or business. In addition, Global Caché provides IR learning devices, sensors, and conversion cabling to connect previously unconnected systems to a network. Global Caché products are based upon open systems and accepted industry standards.

Ezecomp, based in Listowel, Ireland, specializes in point-of-sale systems and control and monitoring systems for the commercial market. Employing the GC-100 Network Adapter, Ezecomp's Ezedac Automation System is able to control and monitor various environments for hotels, large office buildings, and industrial complexes easily and affordably.

"We're very pleased with this new partnership with Global Caché," said Steve Galvin Ezecomp's Managing Director. "The flexibility of their hardware allows us to easily tailor and optimize our software for unique environments, giving our customers the most powerful solution quickly and cost-effectively."

"We're excited to have Ezecomp join us as a Value-Added-Reseller," said Global Caché President Walt Keller. "Their focus on computerized control and monitoring, as well as their presence in Ireland is a big plus. We are really looking forward to supporting them in their success."

**About Global Caché, Inc.**

Global Caché is dedicated to producing state-of-the-art products that enable technology in homes and businesses. Our award-winning GC-100 Network Adapter provides the means for PC-based automation and management software to access, control, and deliver services in a networked home or business to diverse and previously unconnected devices and appliances. In addition, Global Caché provides the GC-IRL IR Learner, winner of the prestigious CEPro Product of the Year award for IP-enabling, receivers, sensors, and other connectivity products. Global Caché sells through distributors, VARs, and OEMs. For more information on Global Caché and our products and services, visit online at [www.globalcache.com](http://www.globalcache.com) or call us at 541-899-4800.
