Global Caché Expands Operations and Opens New Office

Company Moves Engineering, Accounting, Sales and Marketing into Jacksonville Facility

Jacksonville, OR – April 03, 2007 – Global Caché, the award winning provider of IP-enabling products for homes and businesses, announced today that they have moved Admin, Engineering, Sales/Marketing, and shipping and receiving to larger facilities in downtown Jacksonville Oregon.

“After more than doubling sales year over year for the last 3 years we found that we were bursting at the seams in our previous facility,” said Walt Keller, Global Caché President. “The move into Jacksonville allows us to add new employees more easily with easier access and office space. The town is charming and offers a wonderful atmosphere to work in. We’ve retained our former building for production and testing.”

Global Caché Headquarters in historical downtown Jacksonville:

160 East California Street
PO Box 1659
Jacksonville, Oregon 97530

About Global Caché, Inc.

Global Caché is dedicated to producing state-of-the-art products that enable technology in homes and businesses. Our award-winning GC-100 Network Adapter provides the means for PC-based automation and management software to access, control, and deliver services in a networked environment to diverse and previously unconnected devices and appliances. In addition, Global Caché provides an IR learner, winner of the prestigious CEPro Product of the Year award for IP-enabling, sensors, and conversion cabling to connect previously unconnected systems to a network. Global Caché sells through distributors, VARs, and OEMs. For more information on Global Caché and our products and services or to place an order, visit online at www.globalcache.com or call us at 541-899-4800.
